

The three zones induction module is designed to supply up to three induction coils independently. Each induction coil surges with a formidable boost power of 3.5kW. It offers three distinct cooking zones, accommodates three simultaneous culinary endeavors.

| Controls | |
|--------------------------------|-------------------------|
| Type of controls | Slider touch control |
| Colour on controls | red |
| Functions | |
| Number of power level | 9 + Power + Boost power |
| Count-up timer | • |
| Automatic pot detection | • |
| Flex zones | •(×3) |
| Residual heat indication | • |
| Timer on each zone | • |
| Independent cooking timer | • |
| Safety lock hob | • |
| Stop&Go | • |
| Cooking zones | |
| Number of cooking zones | 3 |
| Cooking area 1/2/3 | |
| Dimensions(mm)/Power(Boost)(W) | L190X210/2200(3500) |
| | |
| Technical details | |
| Total connected load(W) | 7200 |
| Multi-phase supply voltage | 220V/240V - N |
| Single-phase supply voltage | 220V |
| Frequency(Hz) | 50 - 60 |
