

With independent 3.5 kW boost power output per coil and accurate zone detection, this four zones induction module efficiently accommodates varied cooking demands, which extremely favored in household appliance.

**Controls**

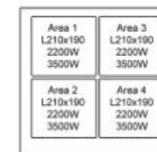

Type of controls	Slider touch control
Colour on controls	red

**Functions**

Number of power level	9 + Power + Boost power
Count-up timer	•
Automatic pot detection	•
Flex zones	•(×4)
Residual heat indication	•
Timer on each zone	•
Independent cooking timer	•
Safety lock hob	•
Stop&Go	•

**Cooking zones**

Number of cooking zones	4
Cooking area 1/2/3/4	
Dimensions(mm)/Power(Boost)(W)	L210×190/2200(3500)

**Technical details**

Total connected load(W)	7600
Multi-phase supply voltage	220V/240V - N
Single-phase supply voltage	220V
Frequency(Hz)	50 - 60
