

The six zones induction module features six individually coils, each capable of delivering an impressive 3.5kW of precision power. With this advanced multi-zone temperature control technology, the appliance accommodates simultaneous culinary preparations across all six heating zones -- making it the quintessential solution for lavish family gatherings and elaborate multi-course feast preparations.

Controls

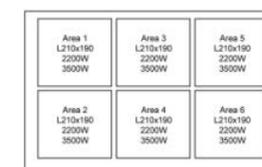

Type of controls	Slider touch control
Colour on controls	red

Functions

Number of power level	9 + Power + Boost power
Count-up timer	•
Automatic pot detection	•
Flex zones	•(×6)
Residual heat indication	•
Timer on each zone	•
Independent cooking timer	•
Safety lock hob	•
Stop&Go	•

Cooking zones

Number of cooking zones	6
Cooking area 1/2/3/4/5/6	
Dimensions(mm)/Power(Boost)(W)	L210×190/2200(3500)

Technical details

Total connected load(W)	12000
Multi-phase supply voltage	220V/240V - N
Single-phase supply voltage	220V
Frequency(Hz)	50 - 60
