

The domino four zones induction module is designed to independently power up to eight induction coils, with each coil capable of delivering up to 1.5 kW, and each zone boast a power capacity of up to 3kW. With precise detection of cooking zones, it accommodates diverse cooking requirements efficiently.

Controls	
Type of controls	Slider touch control
Colour on controls	red
Functions	
Number of power level	9 + Power + Boost power
Count-up timer	•
Automatic pot detection	•
Flex zones	•(×8)
Residual heat indication	•
Timer on each zone	•
Independent cooking timer	•
Safety lock hob	•
Stop&Go	•
Cooking zones	
Number of cooking zones	4
Cooking area 1/2/3/4	
Dimensions(mm)/Power(Boost)(W)	L245×95(×2)/2400(3000)
Technical details	
Total connected load(W)	7600
Multi-phase supply voltage	220V/240V - N
Single-phase supply voltage	220V
Frequency(Hz)	50 - 60
